

Version: UPS 16.5(SCL)

Applicable SKUs:

=====

ID 1048, All standard SKUs beginning with SCL prefixes.

SCL: SCL500RM1UNC, SCL500RMI1UNC

This revision provides stronger network data security protection via the below mechanisms to prevent malicious firmware from being upgraded to the UPS through communication interface ports.

Change logs:

1. The mechanism of firmware signing adds to the code in order to protect the UPS from malicious firmware spoofs.

Note: Smart-UPS Firmware Upgrade Wizard tool

always includes the latest released firmware and helps upgrade the UPS code via serial(RS232) port; Upgrade via USB port from this tool is not recommended.
